

Intersurgical EcoLite™ adult medium concentration oxygen mask

The lightest and most comfortable mask available

Oxygen and Aerosol Therapy ▪ Oxygen Therapy

Intersurgical **EcoLite™** adult medium concentration oxygen mask

Welcome to the Comfort Zone

Following the outstanding success of the original Intersurgical EcoLite adult oxygen mask, with millions sold around the world, we are pleased to announce the arrival of the next generation.

Incorporating new features such as an extended chin with two integral seals, the new mask ensures a comfortable fit to a wider range of face shapes and sizes.

The world's lightest and most comfortable oxygen mask has just become even more comfortable.

Comfortable for the patient

The unique features of the original Intersurgical EcoLite oxygen mask have been retained and include the following:

Incurved nose seal

Conforms to different nose shapes designed to prevent oxygen entering patient's eyes

No metal nose clip

MRI compatible

Comfortable for the environment

Various groups have questioned the use of PVC in medical products and its impact on the environment. Intersurgical's aim is to reduce the environmental impact of its products and processes. The utilisation of new materials and the latest manufacturing technology has resulted in the elimination of PVC from the mask shell resulting in a reduced environmental impact.

More about
our Eco Range

www.intersurgical.com/info/eco

Lighter

50% lighter than a PVC mask, more comfortable for the patient

Greener

The elimination of PVC from the masks has dramatically lowered their environmental impact

Soft face seals

Increased patient comfort

Elastic can be positioned under or over the ears

Below ear position eliminates trauma to top of ears

A choice of "under chin" or "on chin" positions

Provides a better fit on a wider range of patient face shapes
