What is QCPR Training application ?

QCPR Training is a fusion of all functionalities, collected from QCPR Learner and QCPR Instructor.

→ [Go to Knowledgebase for more information](#)

What about QCPR Instructor ?

When accessing latest version (Android/iOS 4.0.0) of QCPR Instructor, users will automatically be notified about the change. It "transforms" to QCPR Training app.

- It is the same app
- It has a new name
- It has more functionalities

→ [Go to Knowledgebase for more information](#)

What happens to QCPR Learner ?

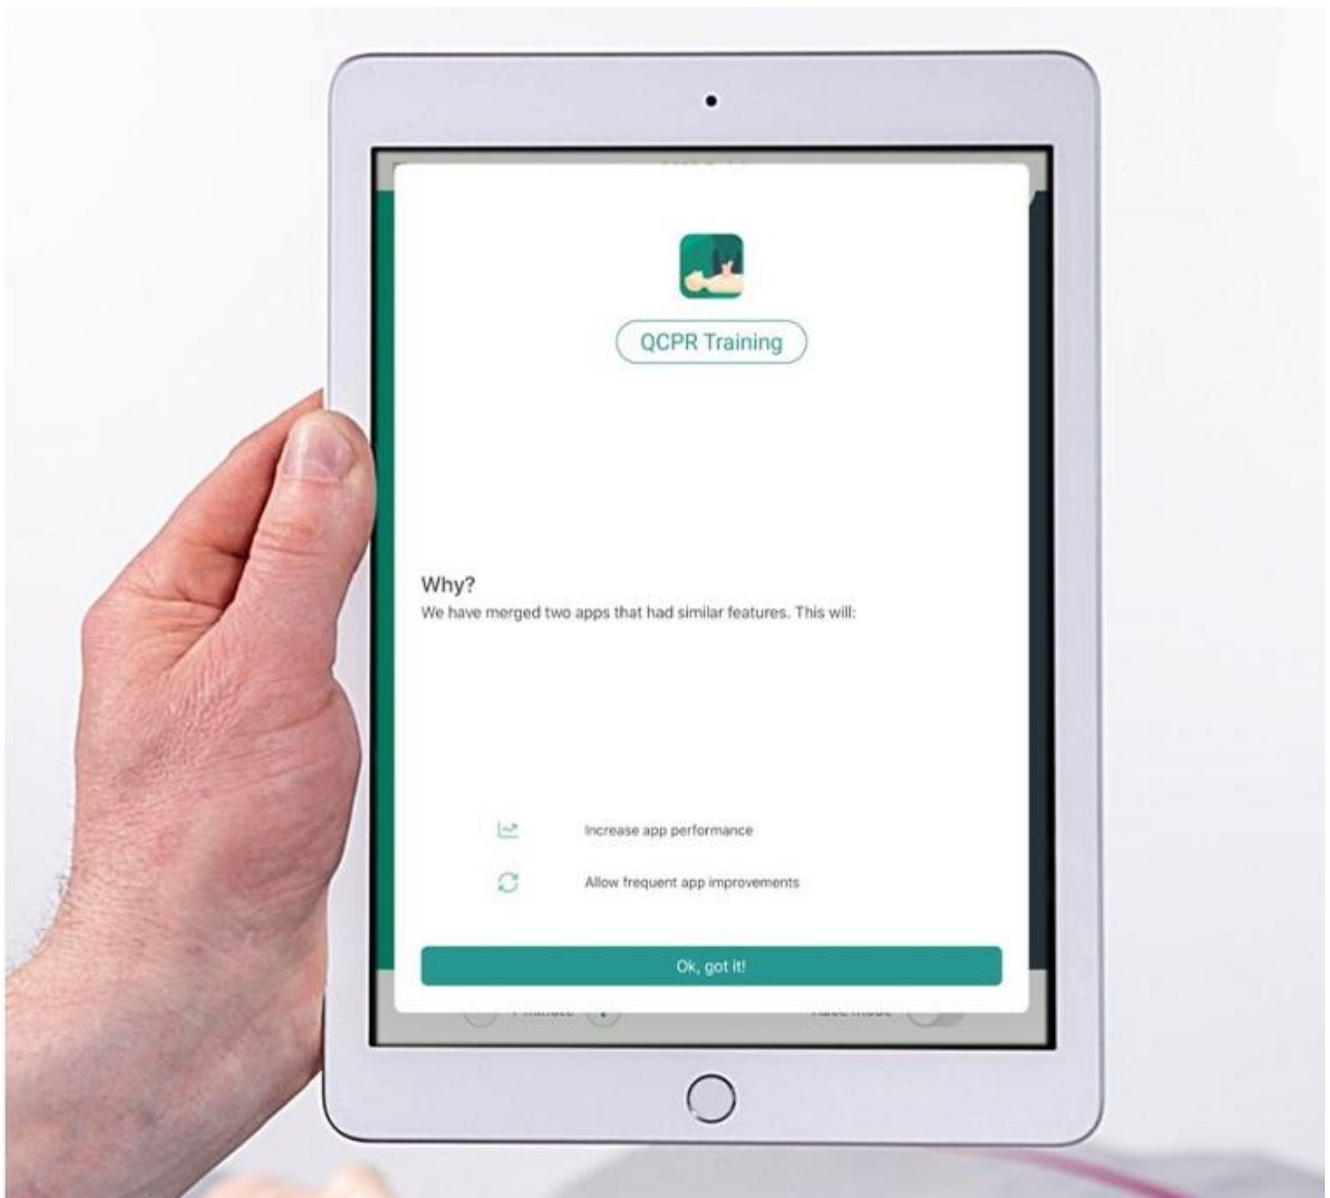

Since QCPR Learner functionalities is included in QCPR Training, Learner will later be terminated. Still some users requires QCPR Learner app to update the manikins' firmware. This will be sorted out before final termination, and be announced in a later PIB.

Mobile device specifications of QCPR Training

QCPR Training has same mobile requirements as QCPR Instructor.
